GRADUATE DIVISION—EXTENSION SESSION

1951-1952

GENERAL INFORMATION

On October 19, 1945 the Board of Regents approved the establishment of graduate courses at The State University of New York at Buffalo, State College for Teachers, leading to the degree of Master of Science. These courses, offered during the Summer Session and in Extension classes only, were designed to meet the needs of elementary teachers who are desirous of enhancing their academic qualifications and their professional proficiency and those who are interested in becoming elementary school principals and supervisors. In September 1947, the Graduate program was extended to include courses in the four special Divisions of Home Economics, Industrial Arts, Art Education and Education for Teachers of Handicapped Children.

1. Objectives and nature of graduate work:

A. To continue preparation in elementary education or in the fields of special education for the purpose of extending and supplementing professional knowledge and skills.

B. To offer an opportunity to study another form of educational service in preparation for changing to other types of service—e.g., from classroom teaching to administration or vice versa.

C. To provide training and experience in the field of educational research in order to foster more highly specialized knowledge in a chosen field.

2. Graduate work limited to Summer Session and Extension Department:

At present there will be no graduate work offered during the regular college session. Graduate schedules will be planned so that requirements for the Master of Science degree may be completed by attendance at five Summer Sessions. This time may be shortened by registration in the Extension Department classes.

3. Admission requirements:

A. Students must hold an approved Bachelor's Degree and be eligible to teach in the elementary field or in the field of specialization.

An approved Bachelor's Degree is a degree from a teachers college accredited by the American Association of Colleges of Teacher Education; or from a teachers college, college or university accredited by the appropriate regional accrediting agency, or on the accredited or approved list of either the state board of education, or the state university of the state in which the institution offering the degree is located.

Students holding a Bachelor's Degree from institutions not in the above mentioned approved or accredited list may, when their qualifications are strong, be admitted to graduate courses, but graduate status will be withheld until ability to do acceptable graduate work has been demonstrated.

B. All students must have demonstrated ability to do graduate work as measured by:

a. Undergraduate scholastic average of 2.3 or higher, except in those cases where extenuating circumstances indicate justifiable modification. In cases where it seems advisable to make exception to the undergraduate scholarship requirement, applicants will be advised to prove their fitness for admission to graduate study.

b. An acceptable teaching record as determined by a confidential statement from the applicant's Superintendent or Principal.

c. Evidence from persons able to judge the applicant's fitness for admission to undertake graduate study.

d. Other evaluation measures as may be prescribed by the Graduate Council.

4. Application for admission to Graduate Division:

A. Secure admission blank from the office of the Director of the Graduate Division, which blank will outline fully the procedure to be followed.

B. Make every effort to have application blank and all other data required in the hands of the Director of the Graduate Division before September 1st, if you wish to enter the Graduate Division the first semester; by January 1st, 1952, if you wish to enter the second semester; and by May 1st, for the 1952 Summer Session.

C. If you do not hold your Bachelor's degree from The State University of New York at Buffalo, write to the college which granted your degree, and ask that an official transcript be mailed to the Director of Graduate Division, State University of New York, State College for Teachers, 1300 Elmwood Avenue, Buffalo 22, N. Y.

5. Standards for a graduate degree:

A. The quantitative requirement for the Master of Science degree shall be the completion of thirty-two semester hours of graduate study.

B. Residence requirements: "A candidate for the degree of Master of Science may offer, for credit, not more than 12 semester hours in approved non-residence courses if he is a graduate of the college at which he is a candidate. He may offer not more than eight semester hours of non-residence courses if he is a graduate of another college. In all cases, however, such graduate study must be similar in scope and content to courses offered by the teachers college, and must form a coherent part of the total program of preparation to be completed by the student. In any case, the last sixteen hours preceding the granting of the Master's Degree must be taken in residence at The State University of New York at Buffalo, State College for Teachers.

C. Five summer sessions of six weeks each shall be regarded as the usual period of attendance for the completion of the thirty-two hour requirement for the Master of Science degree. This period of time may be shortened by attendance in the classes of the Extension department.

D. No graduate student, in any New York State College for Teachers, who is a full time teacher, will be permitted to carry an extension program in excess of four credits per semester or eight credits per college year. This maximum of four hours per semester includes all work whether taken in afternoon, evening, or Saturday sessions at State or elsewhere. Registration above this maximum will result in loss of credit in excess of four semester hours.

In the Summer Session, a graduate student may be permitted to carry a maximum of one hour of credit per week, that is for two weeks' work he may receive a maximum of two (2) credits; for six weeks work, six (6) credits; for eight weeks' work, eight (8) credits.

E. Credit will not be given for courses completed in another college or university more than seven years prior to registration in the Graduate Division of The State University of New York at Buffalo, State College for Teachers. A candidate for the Master's Degree shall satisfy all the prescribed requirements for said degree within six years from the date of matriculation.

6. Admission to Candidacy:

Admission to candidacy for the degree is dependent upon:

A. The completion of at least six semester hours in graduate courses.

B. A cumulative average of "B" in courses accepted for graduate credit. No courses in which a mark of "D" is received will be accepted for graduate credit. Not more than nine (9) semester hours of "C" work will be accepted towards a degree.

C. A recommendation from the adviser of the candidate.

D. A comprehensive written or oral examination may be required upon the recommendation of the adviser or the Admissions Committee.

7. Special students who do not intend to apply for admission to candidacy may register for courses in the Graduate Division. However, these (non-matriculating) special students are limited to a total of 12 hours of graduate credit.

8. Registration Fees:

Registration for Graduate Division classes in the Extension Department will be held Saturday, September 15, 1951 and Saturday, February 2, 1952, in the College Library. Please report first, in each case, to the Auditorium at 9 o'clock, for Assembly and further instructions. Graduate Division fees are \$12.00 per credit hour.

10. Elementary Teaching Certification for Liberal Arts College Graduates:

Due to the extreme shortage of elementary teachers, the State Education Department has approved a plan whereby college graduates may enter an intensive training program to prepare for general elementary school teaching. The completion of a minimum of 30 semester hours, on the graduate level, 24 hours of which shall be in education courses approved for elementary school teaching, and evidence of satisfactory teaching, as determined by an approved evaluation program, will entitle the student to a permanent certificate to teach in the elementary grades.

This program has been inaugurated to help relieve the current teacher shortage. It has been planned so that interested college graduates may register in the Graduate Division for certain specified Saturday Extension courses and Summer Sessions. Satisfactory completion of prescribed courses in a Summer Session will entitle the college graduate to a renewable certificate valid for one year. Additional renewals will be granted upon evidence of continued summer session study and satisfactory teaching, upon the request of the employing school official.

If the student wishes to complete the requirements for the Master of Science Degree, 8 hours of graduate study, elected under the guidance of the Graduate Division of this college, will be required in addition to the 24 hours of required courses in elementary education. All college graduates interested in this program for certification in elementary school teaching, should secure application blanks and complete instructions for registration as soon as possible. The following is the curriculum for Certification of Liberal Arts Graduates:

Intermediate and Upper Grade Group

OFF-CAMPUS EXTENSION

Inquiries have been received to date (July 1, 1951) concerning possible courses in the following communities: Akron, Alexander, Arcade, Clarence, East Aurora, Gowanda, Lockport, Niagara Falls, and Oakfield.

Teachers who are interested in developing courses in these communities and have not yet signified that interest should call or write Dr. Robert E. Albright, Director of Extension, 1300 Elmwood Avenue, Buffalo 22, N. Y. as soon as possible. Courses will be organized if sufficient enrollment can be secured and if faculty schedules can be arranged to meet the demand.

GENERAL INFORMATION

1. Teachers in service and properly qualified undergraduates will be admitted to Extension courses.
2. A fee of \$10.00 is charged for each semester hour in undergraduate courses; \$12.00 per semester hour for all graduate courses. Special exceptions may be made in the case of regular students and faculty. No refunds will be made unless the course is discontinued. Fees are payable at registration.
3. While credit is granted for the completion of all credit courses the application of such credit to the specific program of any student is subject to the approval of the Registrar. Extension credit is transferable to other academic institutions, in accordance with the regulations of such institutions.
4. If a student wishes to be considered a candidate for a degree he is expected to secure, either by mail or by a personal interview, evaluation of his program from the Registrar in order that he may be sure that work taken will fit his individual need.
5. Extra-mural courses will be organized in convenient centers where the demand is sufficient to justify it. Communication with the Director is urged.

6. Three year Buffalo State Teachers College graduates taking extra-mural courses are warned not to expect credit toward degree if such courses fall within the last sixteen hours of required residence. Extra-mural credit does not count towards the residence requirement if the first three years' work of the candidate were taken elsewhere.
7. Classes under twelve, as an absolute minimum, will not be organized except in exceptional cases of required subjects necessary for immediate graduation.
8. The right is reserved to make any necessary alterations in the course offerings listed in this catalog without notice.
9. Any students who have questions relative to courses, requirements or other matters pertaining to extension work, please write to R. E. Albright, Director of Extension, New York State College for Teachers, Buffalo 22, N. Y.

APPLICATION FOR DIPLOMA

Students expecting to qualify for degrees in January or June of any year are required to make application in the Registrar's office for such degree by November 1 of the year in which they expect to graduate. Diplomas will not be ordered for students who fail to make application, and the College cannot be responsible for the graduation of any who fail to make application. Students completing the requirements for the degree during the Summer Session are required to make application for the degree before the close of the Summer Session.

This applies to applicants for both Bachelor's and Master's degrees and includes graduates in all divisions.
